Brick: Web Publishing Options – Internet (Means of publishing content on the Internet)
Domain: Web Infrastructure
Effective Date: September 9, 2016

Current	+ Two Years
1. Baseline Technology (Approved & Supported for Current Usage.) • Gateway.maine.gov (.NET) • Incapsula • InforME • Portal.maine.gov • Third Party Hosting	**2. Mainstream Targets (Primary candidates for future deployment, subject to further review and acceptance by the CIO.)** • Descendants of Baseline Technology
3. Retirement Targets (Exit ASAP.) • Microsoft ISA • Predecessors of Baseline products that lag by more than one full version from those that are fully supported by the product vendor.	**4. Containment Targets (Current usage approved. No further proliferation. Long-term exit plan. For waiver, follow Waiver Policy.)** • Predecessors of Baseline products that lag by no more than one full version from those that are fully supported by the product vendor.

5. Notes:

• Universal proxy services: An ultimate goal for the proxy service is to brand all state applications as Maine.Gov/application.
• Until proxy services are better exploited, the applications publishing venue is/will be dictated by the hosting environment
• By default, Baseline Technology product versions are those that are fully supported by the product vendor. This includes "Extended Support", not just "Service Pack" or "Mainstream Support".
